How many of the first 10 questions did you answer "True" (those about your work)? How many of the last 10 questions did you answer "True" (those about your spouse)? Did you answer "True" more often to the work questions? What do you think this might mean about how you view your relationship? What could you do to change this? List the qualities that you answered "False" to about your spouse and "True" to about your work. Start bringing these qualities into your marriage.
