

LANDFORMS AND HUMANS

Natural Barriers

Landforms affect people in many different ways. Let's take a look at natural barriers, a type of landform.

Look at the map.

*How do you think the location of the many mountain ranges in **Nepal** affect the people living there?*

Discover the world of science with 1 year access to more than 25 interactive titles at <https://nodma.link/42s> and get 50% off with the promo code: **SCI50**

Type of Resource:

This worksheet may be printed and passed out to elementary and middle school students to educate them about landforms and how it correlates to human living.

The actual courseware/source of this activity is Landforms and Humans, one among over 25 best-selling offline interactive educational science e-learning coursewares called Science Werkz which won the 2013 EDDIE Award for Science E-Learning Solutions in the Upper Elementary and Middle School Categories.

How to use this Resource:

We highly suggest that you use this resource if you are a teacher who wants to let your students know more about the effects of many different landforms to the lives of humans.

Start by giving a full lecture on landforms. You can then print this quiz to ask the students to answer and see how much they have learned.

Answer Key:

Highlands like mountains tend to limit movement. The steep slopes and high altitudes make it difficult to construct transport networks and communication lines, thus causing many communities living in the mountainous areas to be isolated from the rest of the world.

More Details about the Resource:

Science Werkz is a line of award-winning offline interactive educational science solutions that may be accessed on the phones, tablets, or computers of its users. Consisting of more than 25 best-selling titles that feature informative videos, animated drawings that support learning, checkpoints, main points, concept map, diagrams, summary questions and interactives to encourage critical-thinking, among the key topics included in Science Werkz are General Science, Chemistry, Earth Science, Life Science/Biology, and Physical Science.

Winner of the 2013 EDDIE Award for Science E-Learning Solutions in the Upper Elementary and Middle School categories, the subscription-based science e-learning courseware may be used by educators for classroom learning or by parents and students for self-paced learning at home.
