LET'S DRAW AN AIRPLANE!

Get some paper, pencils or crayons and let's practice Drawing with Mark!

Start with an outline. It's basic tubes and triangles:

Don't worry about starting and stopping your lines... just "draw through!"

Add more detail:

The engines start as circles.

Add squares for windows so the passengers can see!

Finish drawing the engines.

Now erase some of the lines as shown. Add some simple lines for the ground below.

Keep practicing and having fun!
