

## 4th Grade Common Core Standards: Whole Numbers

Multiply numbers by 1-digit and 2-digit numbers

Fill in the blank with the correct answers.

**Example:**

$$\begin{aligned} 16 \times 30 &= \underline{16} \times \underline{3} \text{ tens} \\ &= \underline{48} \text{ tens} \\ &= \underline{480} \end{aligned}$$

$$\begin{aligned} \textcircled{1} \quad 18 \times 20 &= \underline{\quad} \times \underline{\quad} \text{ tens} \\ &= \underline{\quad} \text{ tens} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} \textcircled{2} \quad 69 \times 40 &= \underline{\quad} \times \underline{\quad} \text{ tens} \\ &= \underline{\quad} \text{ tens} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} \textcircled{3} \quad 98 \times 30 &= \underline{\quad} \times \underline{\quad} \text{ tens} \\ &= \underline{\quad} \text{ tens} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} \textcircled{4} \quad 53 \times 60 &= \underline{\quad} \times \underline{\quad} \text{ tens} \\ &= \underline{\quad} \text{ tens} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} \textcircled{5} \quad 77 \times 90 &= \underline{\quad} \times \underline{\quad} \text{ tens} \\ &= \underline{\quad} \text{ tens} \\ &= \underline{\quad} \end{aligned}$$

## Type of Resource:

This is a worksheet from Nodma e-learning app that may be printed and distributed to middle school students grades 1 to 6 to educate them about the Fourth Grade Common Core Standard on Mathematics of multiplying two 2-digit numbers, using strategies based on place value and the properties of operations.

Students will be asked to multiply numbers by 1-digit and 2-digit numbers. The actual courseware is a workbook that provides students formulae sheets for checking/recalling math formulae, work exercises for becoming familiar with various questions and non-routine questions for developing analytical skills.

## How to use this Resource:

You may use this resource if you are a teacher who wants your students to learn about multiplying two 2-digit numbers, using strategies based on place-value and properties of operations or if you need a worksheet that is based on the Fourth Grade Common Core Standard on Mathematics.

Start by demonstrating to the class how to multiply a few two 2-digit numbers, then hand out the worksheet to let the students answer and to give them enough practice on the lesson discussed.

Download the full, interactive experience both for students & teachers from Nodma at <https://nodma.link/43D> and get 75% off when you purchase today using the code: **SBLM4**

## Answer Key:

1.) 18, 2; 36; 360

2.) 69, 4; 276; 2760

3.) 98, 3; 294; 2940

4.) 53, 6; 318; 3180

5.) 77, 9; 693; 6930

## More Details about the Resource:

**Learning Maths series** is a series of comprehensive workbooks that makes math easy to understand for kids who are having learning difficulties in math. Using the world-renowned best-in-math Singapore strategy and based on the **Common Core State Standards for Mathematics**, it allow learners to have sample practice on various types of math questions.

It is produced by leading e-publisher Amdon through its proprietary e-learning platform, PageWerkz and using Nodma, the e-learning app with no limits.

What's amazing about this courseware is the gradual presentation of lessons and the numerous practice tests it included that will facilitate better absorption of the mathematical lessons for young minds. The questions posted will also ensure that multiple concepts are understood.
