

Scaggy Scavenger Hunt

How many gross things can you find lurking in your house? Keep a copy of the list below for yourself, and make a copy for a sibling or parent. Then search your house from top to bottom. Each item is worth 3 points. Whoever gets the most gross points wins!

- ___ pet poop
- ___ hairball
- ___ dust bunny
- ___ smelly sock
- ___ sour milk
- ___ toenail clipping
- ___ used cotton swab
- ___ used bandage
- ___ moldy leftover
- ___ dried booger
- ___ chewed gum
- ___ dead insect
- ___ other _____

Here's a few rules:

Don't pick up the gross stuff you find. Just check it off your list and add up the points.

If you want to play with a friend, let him search his house while you search your own house. Get together later to compare results.

Gross Gulps

Your body makes between four and six cups of this stuff each day. You get rid of most of it without a thought. What is it? Where does it go? The answer is hidden in the letter grid. Start in one of the four corners, and read the letters in a logical order. You have to figure out in which direction to read!
